PROJECTS COMPLETED

Internship at "GetSoftSkills Center" - Tangier 01/07/2023 - 14/09/2023

During my first year at the Higher School of Technology in Casablanca, I completed a two-month internship where I created a website for the center using WordPress at GetSoftSkills Center, following the Scrum methodology.

Graduation Project

In my second year, I initiated a graduation project involving setting up a PostgreSQL cluster on Proxmox,

Creation of an e-commerce website in PHP

As part of a classroom project, I developed an e-commerce website in PHP using Apache. This project allowed me to apply advanced concepts of web development and strengthen my database management skills.
